

Take part in the **National Student Survey (NSS)** which is open until 30th April 2026 - and be in with a chance of winning £500! 

CW5: Submit your Team's project implementation/code

Mark as done

Opened: Friday, 13 February 2026, 9:30 AM

Due: Thursday, 19 March 2026, 4:30 PM

Please read through the instructions for the project implementation.

Please make sure that:

- Your code is attached as a zip file.
- App is deployed and URL is included in the report.
- You submit the report as a PDF.

Grading criteria

Deployment	Application not deployed. 0 points	Attempt at deployment made, but application largely unusable or inaccessible. 1 points	Application deployed but significant usability/functionality issues. 2 points	Application deployed with noticeable issues impacting functionality. 3 points	Application deployed, minor usability/accessibility issues. 4 points	Application fully deployed, accessible, and fully functional without issues. 5 points
------------	--	--	---	---	--	---

Functionality: Main Functionality Implemented Reflecting Design	Minimal or no meaningful functionality implemented. <i>0 points</i>	Minimal or no meaningful functionality implemented. <i>1 point</i>	Limited functionality implemented, substantial differences from design. <i>2 points</i>	Limited functionality implemented, substantial differences from design. <i>3 points</i>	Limited functionality implemented, substantial differences from design. <i>4 points</i>	Some key functionality implemented, significant gaps from original design. <i>5 points</i>	Some key functionality implemented, significant gaps from original design. <i>6 points</i>	Some key functionality implemented, significant gaps from original design. <i>7 points</i>	Most functionality implemented with minor discrepancies or omissions. <i>8 points</i>	Most functionality implemented with minor discrepancies or omissions. <i>9 points</i>	Full functionality implemented, closely matches original design. <i>10 points</i>
Functionality: Use of JavaScript / JQuery / AJAX (or other interactive client-side technology)	No use of JavaScript / JQuery / AJAX. <i>0 points</i>		Limited or superficial use, not enhancing functionality. <i>1 points</i>		Limited or superficial use, not significantly enhancing functionality. <i>2 points</i>		Adequate use, minor issues. <i>3 points</i>		Adequate use, missed opportunities for enhancement. <i>4 points</i>		Effective and appropriate use enhancing user experience. <i>5 points</i>

Look and Feel: Polished / Refined Interface	No meaningful interface or completely non-functional. <i>0 points</i>	Interface severely lacking usability and polish. <i>1 points</i>	Interface is functional but clunky, lacks refinement. <i>2 points</i>	Basic interface with clear room for refinement. <i>3 points</i>	Good interface with minor visual or usability issues. <i>4 points</i>	Interface is intuitive, polished, refined, and professional. <i>5 points</i>
Look and Feel: Responsive CSS Framework	Not responsive, no use of responsive CSS. <i>0 points</i>	Minimal responsiveness with notable problems. <i>1 points</i>	Minimal responsiveness. <i>2 points</i>	Some responsiveness, but notable problems on multiple devices/screen sizes. <i>3 points</i>	Mostly responsive, minor issues. <i>4 points</i>	Fully responsive, excellent use of framework. <i>5 points</i>
Code: Implementation / Separation of Concerns	Implementation incoherent, no clear organization. <i>0 points</i>	Poor implementation, little separation of concerns, difficult to navigate. <i>1 points</i>	Little separation of concerns, difficult to navigate. <i>2 points</i>	Adequate organization but notable mixing of concerns affecting clarity. <i>3 points</i>	Good organization, minor mixing of concerns. <i>4 points</i>	Clear and well-organized implementation with excellent separation of concerns. <i>5 points</i>

Code: Code Readability, Clarity, and Comments	Unreadable code, no commenting. <i>0 points</i>	Limited clarity, inadequate commenting. <i>1 points</i>	Generally clear, minor readability/commenting issues. <i>2 points</i>	Clear, readable, well-commented code. <i>3 points</i>
Code: Unit Tests	No unit tests included, zero coverage. <i>0 points</i>	Partial or minimal unit tests included, limited coverage. <i>1 points</i>		Comprehensive unit tests included and passing. <i>2 points</i>

Report: Description of Design, Implementation, and Testing	No meaningful descriptions provided. 0 points	Minimal descriptions, lacks clarity, significantly incomplete report. 1 point	Minimal descriptions, lacks clarity, significantly incomplete report in one of design/implementation/testing. 2 points	Inadequate descriptions, significant details missing or insufficiently detailed design and implementation/testing. 3 points	Inadequate descriptions, significant details missing or insufficiently detailed design/implementation/testing. 4 points	Good descriptions, minor omissions or unclear explanations in design/implementation/testing. 5 points	Good descriptions, minor omissions or unclear explanations in one of design/implementation/testing. 6 points	Comprehensive, clear, insightful descriptions covering design decisions, implementation details, and testing thoroughly. 7 points
Report: Writing and Structure	Unclear, poorly structured, significant writing issues. 0 points		Poor clarity, difficult structure. 1 points		Mostly clear, minor structural issues. 2 points		Excellent clarity, well-structured, easy to follow. 3 points
